Additional info: Ryan James is a website design and developer based in North London, originally from Poole, Dorset. Ryan has a First Class Honours degree in Business Studies and IT from DeMontfort University, Leicester. From the age of 14 Ryan has had a passion for website design and development, starting with various self-taught projects, and later studying website development at university. After graduating from university in 2008, Ryan spent 15 months working for a UK scientific giant as lead website designer and developer. He left the company in 2009 to seek work in London, where he joined an international 3D holographic projection company as lead website designer and developer. Within one year he was promoted to marketing manager. 5 years of self taught, 3 years of university study and 4 years in the industry has allowed Ryan to keep his finger on the pulse of all things website design and development.

Skills: HTML, CSS, Photoshop, Dreamweaver, Joomla
